Sunset: Today 5:46 pm

Weather Forecast Valid until 8am Tomorrow

Winds: East at 8 to 16 mph.

Seas: Not exceeding 1.5 metres or 5 feet.

Weather Forecast for St. Kitts & Nevis:

Weather today: Sunny with a 10 percent or slight chance of showers.

Weather tonight: Fair to partly cloudy with a 30 percent or low chance of showers.

Eastern Caribbean Forecast: Stable conditions will prevail across the Eastern Caribbean as a dominant surface high pressure system inhibits significant shower activity. Partly sunny conditions with at most a moderate chance of showers are expected across Puerto Rico southward to Trinidad and Tobago. However, overnight to early morning showers are expected as the winds speeds are likely increase due to the strengthening of the high pressure creating a steep pressure gradient over the area. This moderate to fresh wind flow will transport pockets of low level moisture into the area that could trigger some shower activity.
