Temperature: 26°C / 79°F

Humidity: 79%

Sea Level Pressure: 1015.9mbs or 30.00"

Sunrise: Tom 6:27 am

Sunset: Today 5:36 pm

Weather Forecast Valid until 8am Tomorrow

Winds: Easterly at 12 to 17mph.

Seas: Significant wave heights of 1.5 metres or 5 feet.

Weather Forecast for St. Kitts & Nevis:

Weather Today: Sunny to partly cloudy with a 40 percent or moderate chance of a couple of light and short-lived showers.

Weather Tonight: Mostly fair with a 30 percent or low chance of showers.

Eastern Caribbean Forecast: A low to upper level trough along with a moist atmosphere will maintain an unsettled environment across the Southern Caribbean where cloudy skies and showers are expected over the Windward Islands, Barbados and Trinidad and Tobago. There is also a moderate chance of thunderstorms. Meanwhile a broad area of high pressure will promote a generally stable atmosphere over the rest of the Eastern Caribbean where mostly partly cloudy skies will prevail. The moderate tradewinds bringing some shallow pockets of moisture into the area will keep the chance of some light and short-lived showers at moderate for the most.
