**Weather Forecast Valid until 8am Tomorrow**

**Winds:** Southeast to east-southeast where speeds will range between 9 to 18mph. Occasional lighter spells is also likely.

**Seas:** Not exceeding 1.5 metres or 5 feet.

**Weather Forecast for St. Kitts & Nevis:** Today will be generally cloudy with intermittent showers. Tonight will be partly cloudy to cloudy with a 50 percent or a moderate chance of showers.

**Eastern Caribbean Forecast:** Unstable conditions associated with a low level trough, will see unsettled weather across the Leeward and Northern Windward Islands today and to a lesser extent tonight. Generally cloudy skies and showers, some of which could become moderate at times, are likely across these areas. Puerto Rico and Trinidad will also see similar conditions as a result of day time heating effects with the possibility of afternoon thunderstorms. Elsewhere across the rest of the Eastern Caribbean, the Atlantic high pressure system will be the dominant feature and, at most, a moderate chance of showers is anticipated.
