Temperature: 24°C/74°F **Humidity:** 97%

Sea Level Pressure: 1018.5mb or 30.07"

Sunrise: Tom 5:45 am

Sunset: Today 6:31 pm

Weather Forecast Valid until 8am Tomorrow

Winds: Easterly at 14 to 22mph.

Seas: 1.5 to 1.8 metres or 5 to 6 feet.

Weather Forecast for St. Kitts & Nevis: The combination of a weak trough over the region along with shallow available moisture will continue to heighten the chance of showers across the islands today. Low moisture levels tonight will restrict shower activity.

Weather today: Mostly cloudy with a 70 percent or a high chance of showers.

Weather tonight: Partly cloudy with a 30 percent or low chance of showers.

Eastern Caribbean Forecast: The combination of a trough and shallow available moisture will heighten the chance of showers under mostly cloudy skies over Puerto Rico east to the Leeward Islands today; while an airmass low on moisture settling over the Leeward and British Virgin Islands tonight will restrict shower activity. The chance of showers across rest of the Eastern Caribbean from the Windward Islands south to Trinidad and Tobago will be low as an airmass deprived of significant moisture sits over the area.
