**Weather Forecast for St. Kitts & Nevis:** Partly cloudy with a 40 percent or a moderate chance of showers.

**Weather tonight:** Fair to partly cloudy with a 40 percent or a moderate chance of showers.

**Eastern Caribbean Forecast:** Cloudy intervals with at least a moderate chance of showers are expected across the Puerto Rico and the Virgin Islands as a upper level trough generates some unsettled conditions. Otherwise and elsewhere a tightened pressure gradient is expected to increase wind speed and this moderate to fresh trade wind flow will transport shallow pockets of moisture and cloud patches over and around the Leeward Islands southward to Trinidad and Tobago. Partly cloudy conditions are expected to prevail with at most a moderate chance of showers.
