Weather Bulletin

Issued at: 7am

Monday 2nd June, 2019

Present Weather: Fair skies

Winds: A gentle breeze of 9mph from the East northeast

Temperature: 27°C / 81°F

Humidity: 85%

Sea Level Pressure: 1016.7mbs or 30.01"

Sunrise: Tom 5:36 am

Sunset: Today 6:42pm

Weather Forecast Valid until 8am Tomorrow

Winds: Southeast at 7 to 19 km/h or 4 to 10 knots becoming lighter and variable or even calm at times.

Seas: 1 to 1.5 metres or 3 to 5 feet.

Weather Forecast for St. Kitts & Nevis: Weak instability in the atmosphere across the area coupled with a warm, light south easterly wind flow and daytime heating could lead to a moderate chance for some shower activity over and around the islands today, gradually decreasing into tonight.

Weather today: Partly cloudy skies with a 50 percent or moderate chance of localized showers.

Weather tonight: Fair to partly cloudy with a 20 percent or slight chance of a brief shower.

Eastern Caribbean Forecast: The presence of an upper level trough coupled with available low level moisture will result in cloudy skies and a high chance of showers from the southern Leewards to Trinidad & Tobago. Elsewhere across the Eastern Caribbean, weak instability along with warm, light south easterly winds and daytime heating could lead to a moderate chance for some localized showers.
