**Weather Bulletin**

**Issued at:** 7 am

Thursday 24<sup>th</sup> October, 2019

**Present Weather:** Fair

**Winds:** Gentle Breeze of 8 mph from the northeast

**Temperature:** 27°C / 80°F

**Humidity:** 81%

**Sea Level Pressure:** 1013.8mb or 29.93"

**Sunrise:** Tom 6:06 am

**Sunset:** Today 5:44 pm

**Weather Forecast Valid until 8am Tomorrow**

**Winds:** East at 6 to 14mph.

**Seas:** Less than 1.2 metres or less than 4 feet.

**Weather Forecast for St. Kitts & Nevis:**

**Weather today and tonight:** Partly cloudy to cloudy with a 30 percent or low chance of showers.

**Eastern Caribbean Forecast:** A tropical wave is affecting Puerto Rico and the Virgin Islands. It will trigger cloudiness with showers and thunderstorms across that area today. Meanwhile, weak unstable conditions are affecting Trinidad and Tobago. Skies therefore will be partly cloudy to cloudy with brief passing showers. The rest of the region will experience partly sunny skies today and partly cloudy skies tonight with low chances for showers.
