Temperature: 27°C / 80°F

Humidity: 80%

Sea Level Pressure: 1013.5mb or 29.93"

Sunrise: Tom 6:15 am

Sunset: Today 5:36 pm

Weather Forecast Valid until 8am Tomorrow

Winds: East-northeast at 9 to 16mph.

Seas: 1.2 to 1.8 meters or 4 to 6 feet.

Weather Forecast for St. Kitts & Nevis: A relatively stable atmosphere will prevail over the Leeward Islands and the British Virgin Islands today and tonight. As a result, apart from a few shallow pockets of low-level moisture, no significant weather is expected over these islands during this period

Weather today: Partly sunny with a 20 percent or slight chance of brief passing showers

Weather tonight: Fair to partly cloudy with a 20 percent or slight chance of brief passing shower

Eastern Caribbean Forecast: The availability of low-level moisture will render the atmosphere over the Windwards slightly unstable today. As a result, skies over these islands will be generally partly cloudy to sometimes locally cloudy with light showers possible. Weather conditions over the rest of the islands including the Leeward Islands will be generally fair to partly cloudy with a slight chance of a brief shower.
