Weather Bulletin

Issued at: 7am

Monday 23rd March 2020

Present Weather: Cloudy skies

Winds: A moderate breeze of 15mph from the NE

Temperature: 25°C / 77°F

Humidity: 79%

Sea Level Pressure: 1019.7mbs or 30.11"

Sunrise: Tom 6:12 am

Sunset: Today 6:22 pm

Weather Forecast Valid until 8am Tomorrow

Winds: East-northeast at 12 – 21mph with higher spells over elevated terrain.

Seas: 1.5 - 2.1m or 5 - 7ft. **A small craft caution is in effect.**

Weather Forecast for St. Kitts & Nevis: Partly cloudy with a 20 percent or slight chance of showers this morning and an increased chance of showers late this afternoon.

Weather tonight: Partly cloudy to cloudy with a 60 percent or moderate chance of showers.

Eastern Caribbean Forecast: Instability over the British Virgin Islands and Puerto Rico in association with a trough, will gradually decrease as a more stable environment moves over these. As a result, clouds and showers will decrease over these islands today. Some brief cloudy spells and passing showers are still expected over the Leewards today; however the frequency of showers is expected to be higher over these islands tonight due to an increase in moisture. The rest of the islands which includes the Windward Islands and islands further south, will see generally partly cloudy skies with a slight chance of shower.
