Weather Forecast Valid until 8 pm Tomorrow

Winds: East-southeast at 14 to 21 mph.

Seas: 1.2 to 2.1 metres or 4 to 7 feet. Small craft operators should continue to exercise caution.

Weather Forecast for St. Kitts & Nevis: A moderate to fresh trade wind flow generated by a ridge of high pressure will continue to transport shallow low level patches across the area during the next 24 hours. However low moisture levels in the atmosphere across the area will continue to restrict any meaningful shower activity over and around the islands during that time.

Weather tonight: Fair to partly cloudy skies with a 20 percent or slight chance of a late night shower.

Weather tomorrow: Partly sunny skies in general with a 40 percent or moderate chance of showers mainly during the morning.
