**Weather Bulletin**

**Issued at:** 7am

Wednesday 1<sup>st</sup> July 2020

**Present Weather:** Cloudy skies with light showers

**Winds:** A Moderate breeze of 18mph from the east

**Temperature:** 28°C / 82°F

**Humidity:** 81%

**Sea Level Pressure:** 1015.9mbs or 30.00"

**Sunrise:** Tom 5:41am

**Sunset:** Today 6:49 pm

**Weather Forecast Valid until 8am Tomorrow**

**Winds:** East-southeast at 12 – 18mph with gusts in showers possibly peaking to near 30mph.

**Seas:** 1.2 - 1.5m or 4 - 5 ft.

**Weather Forecast for St. Kitts & Nevis:** Moisture and instability associated with a tropical wave will heighten the chances of showers across the region.

**Possible rainfall total for the forecast period is 6 to 19 mm or 0.25 to 0.75 inch.**

**Weather today:** Cloudy with showers and a 30 percent or low chance of thunderstorms.

**Weather tonight:** Mostly cloudy with a 70 percent or high chance of showers.

**Eastern Caribbean Forecast:** Moisture and instability associated with a tropical wave that is traversing the Eastern Caribbean will result in cloudy skies and showers across the Leeward Islands south to Trinidad and Tobago today and tonight. There is also a high chance of thunderstorms over and around the Windwards and Trinidad and Tobago, while the chances of thunderstorms over the Leeward Islands will be low. Meanwhile, the chances of showers will remain low across Puerto Rico and the Virgin Islands as dry and stable air continues to sit over the area today. However, the wave bringing some moisture and instability into the area tonight through to Thursday morning will increase the chances of showers across the islands.
