Weather Forecast for St. Kitts & Nevis:

A slight increase in moisture due to the presence of a low level trough, could increase the chances of light and brief showers over the Leewards during the next 24 hours.

Weather today: Partly cloudy with a 40 percent or moderate chance of showers.

Weather tonight: Partly cloudy with a 30 percent or low chance of showers.

Eastern Caribbean Forecast: Relatively stable atmospheric conditions will result in settled conditions prevailing across Puerto Rico and the Virgin Islands. Meanwhile, over the southern Leewards and Northern Windward Islands, a weak trough will result in periods of brief showers over these islands. Similar weather conditions are expected over the southern Windward Islands and Trinidad and Tobago due to weak unstable conditions.
