

Urgent – Marine Weather Message

Small Craft Advisory

Antigua and Barbuda Meteorological Services

11:30 AM Friday 01 July 2022

...Small craft advisory in effect for Montserrat, St. Kitts, Nevis, Anguilla and the British Virgin Islands...Small craft advisory goes back into effect Sat afternoon for Antigua and Barbuda...

Locations to be affected: Mainly open waters on the Atlantic sides of the islands out to 20 nautical miles.

Timing: Until Saturday afternoon for St. Kitts and Nevis; until Sunday for Montserrat; until Monday for Anguilla and the British Virgin Islands and Saturday afternoon until Monday for Antigua and Barbuda.

Synopsis: A combination of wind waves and wind swells is expected to maintain hazardous seas, especially for open waters on the Atlantic sides of the islands. The threat level to the life, livelihood, property and infrastructure of mariners is to be moderate to high with the potential for significant to extensive impacts. A small craft advisory means that wind speeds of 21 to 33 knots and or wind waves and or wind swells of 7 feet or greater are occurring or imminent. See the small craft warning bulletin. Warnings are expected for Montserrat, Anguilla and the British Virgin Islands tonight and or tomorrow, see small craft warning bulletin.

Winds over open waters: East at 26 to 41 km/h (14 to 22 knots; 16 to 25 mph), with strong gusts to around 63 km/h (34 knots; 39 mph).

Seas (significant wave heights): 1.8 to 2.7 metres (6 to 9 feet), occasionally or locally reaching near 3.5 metres (12 feet). **Wind waves and or wind swells:** 1.8 to 2.7 metres or 6 to 9 feet and occasionally higher. The dominant wind wave period is 6 to 9 seconds.

Potential Impacts: Loss of life at sea; injuries to mariners; capsize or damage or loss of vessels and marine equipment; financial losses; disruption of fisheries and scarcity of fish products and disruption to marine transportation.

Caution: Inexperienced mariners, especially those operating smaller vessels should avoid navigating in these conditions.

Please continue to monitor these hazardous, life-threatening marine conditions. Stay tuned to updates coming out of the Met Office via antiguamet.com, facebook.com/abmetservice and twitter.com/abmetservice. Also, stay tuned to ABS Television/Radio along with other media platforms for updates.
