**CONSUMER AFFAIRS BACK TO SCHOOL BOOKLET
FOR THE YEAR 2023 -
CONSUMERS PLEASE CONTINUE TO SHOP SMART!**

Message from Consumer Affairs

Malcolm X said “Education is the passport to the future, for tomorrow belongs to those who prepares for it today.” May this school year be the best ever!”

Consumer Affairs Department encourages all parents/guardians to shop carefully and wisely during their back to school shopping. Purchasing items for school can be very expensive especially uniforms and textbooks. Our Department has once again taken the initiative by collecting prices for textbooks and school uniforms to assist you. Please make wise choices when purchasing textbooks and school uniforms.

“Consumers - please take note prices are subjected to change without the knowledge of our Department and this is only a guideline of the price range for the textbooks and school uniforms.”

When seeking textbooks, there are several methods to choose from. Some methods would obviously save you more money than others, but each comes with its own set of sacrifices. The options are:

1. Buying new or used books.
2. Seeking assistance from family/friends to see if the required textbooks are in their possession.
3. Join the Government owned Student Education Learning Fund (SELF) Programme.

The government initiative Student Education Learning Fund (SELF) is geared towards ensuring each child is given the opportunity to receive and achieve a high level of education regardless of their social or financial circumstance. This is done by providing each primary & secondary school child with the appropriate textbook in order to facilitate their learning.

Books are considered as best companions of human beings. They are a treasure trove of knowledge but require care to last for a long

time. Books are prone to be torn and damaged if we don't take good care of them. In this rainy season, it has become all the more necessary to take care of books to extend their life.

Here are a few text book safety tips:

Do Not Eat & Drink when using textbooks - Food and liquids are hazards to your books. If you need to read, eat before or after, make sure your hands are clean and dry to hold the book and to turn the pages. Check the surface (table/area) for moisture, crumbs, and stickiness before you put your book down. **The best practice is to avoid eating or drinking while you read.**

Avoid Writing inside the textbooks - Try to avoid writing, underlining, highlighting words, phrases, and paragraphs, if you plan to sell the book in the future. If you plan to keep the book you can. Use a journal or notebook to take notes on pages/passages. If you are required to write in your book, use a pencil, and erase the markings.

Avoid Bugs, Pets, and Other Critters - Bugs and mice eat books. Dogs can chew books; and cats can scratch the bindings of books. You can avoid many of these issues by keeping the books in a safe area.

Avoid Heat and Moisture - Keep your books in a dry place, out of direct sunlight, and away from the heat. Do not place your books in moist places (basement, bathroom, or other moist areas), mould and mildew are likely to appear and grow on your books. Sunlight can damage the bindings of your books and can cause the books to dry out and the pages to crumble.

Keep Out-of-Children's Reach - Encourage children to read, it is very important for children to see you reading. Children can tear pages, chew on them and contribute to the overall destruction of some of your most prized volumes. Depending on the ages of the children teach them to handle books with care. If they are younger children keep the books out-of-easy-reach. This idea is not to discourage reading but to protect your books.

Back-to-School Shopping Tips

- Before starting the new school year, sort through your old materials. Many of last year's supplies can be reused.
- Recycle unwanted papers & reuse your old folders & binders. Paper that had only one side written on it can be reused; you can cut it up and re-staple it to make a notebook/scrapbook.
- Many schools reuse text books to save money & to reduce waste. Share your books with relatives, friends or younger schoolchildren. You can even seek a small donation for them.
- Make a list before you shop for school supplies, it will help you remember what you want to purchase and limit impulse buying. When you have a plan it's easier to take action.
- Cover your textbooks with plastic covering, newspapers or papers to help reduce wear and tear and keep your books in good condition. Be creative to even design your tags for your book covering.
- Maintain newly purchased items. Students frequently lose small items like pens & pencils. Make a conscious effort to put school supplies in a safe place everyday. This will not only reduce waste but will save you a headache from losing something important!
- Always collect your receipt and save it. Under Consumer Affairs Act 2003, consumers are entitled to a receipt for all purchases, whether it be a machine printed or a hand written receipt. All receipts must include:

Total Amount Paid, Date, Business Name & Address with the Signature of the Sales Person, and the Description of the Item Purchased.

General School Checklist

- | | | |

| √ Erasers | √ Sharpeners | √ Staplers |
| √ Staple Remover | √ Paper Clips | √ Paper Scissors |
| √ Thesaurus | √ Geometry Sets | √ Atlas |
| √ Testaments | √ Coloured Pencils | √ Crayons |

Choosing the correct School Shoes

Tips from our Consumer Affairs Department for choosing the best fitting shoes:

- Ensure there is one thumb-width between the end of the longest toe and the end of the shoe
- Select shoes with a removable insole so that they can be removed when your child's feet grow
- Select shoes that have a firm heel counter (when twisting the shoe it should be firm)
- Select shoes that are flexible at the forefoot (when bending the shoe it should bend at the forefoot, where the foot naturally bends during walking)
- Choose easy-to-fasten shoes for younger children
- The heel area should fit exactly without being too tight or too loose

Backpacks/School Bags

Stores will have an abundance of back-to-school backpacks/bags in every shape and size. It is important to find a well fitting backpack that will best distribute the load on your child's body.

- **Shoulder Straps** - Look for wide, padded, contoured shoulder straps that distribute the pack's load over a large area of the shoulders.
- **Abdominal Straps** - An abdominal Strap can help distribute the pack's weight evenly on the back, waist & hips.
- **Bottom of the Bag** - The bottom of the backpack ideally should rest in the curve of the lower back, or at least no more than 4 inches below the waistline.
- **Covered zippers** - Backpacks with zippers that are not protected by flaps of fabric allows water to seep in.
- **Flaws** - Sloppy stitching or loose threads can indicate poor manufacturing. Raw, exposed fabric edges can fray and weaken the fabric, & possibly get stuck in the zipper.

How to Wear Backpacks/School Bags

The correct way to carry the load may help your child avoid discomfort. Encourage your child to do the following:

- Always wear the shoulder straps on both shoulders so the weight is evenly balanced
- Distribute weight evenly. Load heaviest books/items closest to the child's back & balance materials so the child can easily stand up straight
- Wear the hip belt if the backpack has one, to improve & take some strain off sensitive neck and shoulder muscles.

Backpack Tips

Wide, padded shoulder straps

Lightweight material

Wear both straps!

Padded back

Waist strap

Multiple compartments

15% of child's body weight

For a 48-pound child, 15% is

For a 59-pound child, 15% is

For a 76-pound child, 15% is

UNIFORM BUYING TIPS

MAKING WASHING AND IRONING EASIER:

We all know how dirty our children's school tops can get, stock up on stain remover or whitening powder for their white school shirts, blouses or polos. Ease the pressure on yourself by investing in easy iron school shirts.

WHEN TO BUY:

It's never too early to purchase their school uniform, if you leave it too late you'll find the sizes are fragmented and you will spend time and money travelling to different stores to find your child's size.

CHOOSING THE RIGHT SIZE:

If your child is in-between sizes then try to go for trousers and skirts with adjustable waistbands, this will allow your child to grow with their uniform and save you money.

CHARLETON EDWARDS MEMORIAL PRIMARY SCHOOL QUIZ 2023

**Congratulations to the
Irish Town Primary School 2023 Winners**

**Congratulations to the
Seventh Day Adventist - 2023 1st Runner Up**

School Uniform Suppliers & Prices

Uniforms

Uniforms can be one of the biggest back to school expenses. Keep an eye out for special promotions in stores on school uniforms or back to school sales, but remember that stocks don't last when demand is high so it's a good idea to buy early rather than waiting until just before the start of the new school year.

UNIFORM MEASURING TIPS

To find the right size: Take actual body measurements as they are more accurate than measuring over clothes

- (a) **Height:** Measure from their heels right to the top of their head, making sure their shoes are off, their feet are flat on the ground and they are standing tall.
- (b) **Collar:** Measure around the base of the neck where the collar sits.
- (c) **Chest:** Keep the tape measure level and their arms by their side, measure at their widest part of body
- (d) **Waist:** Make sure it's not too tight, measure around their waist line - this is normally in line with their belly button
- (e) **Length -** Measure from the point where your child wears her skirt, either from her waist or from her hips, to the length where she would like her skirt to the end.
- (f) **Hips:** Measure around the fullest part of their bottom, keeping the tape level.

Please find uniform prices for the **Various School Uniform Outlets** in St Kitts along with their prices. **Prices listed are as of 19th June 2023.**

Please also note prices are subject to change without the notification of Consumer Affairs Department.

The Department of Consumer Affairs in collaboration, with the SELF Unit, has created a Price Comparison of the text books used by students in the High Schools.

For the year 2023, the Consumer Affairs Department has published the price comparison from the two major textbook suppliers. The Consumer Affairs Department therefore, anticipates that this comparison would assist consumers in making wise choices in the purchasing of text books.

All prices listed are as at 19th June 2023

Kindly take note that all prices are subject to change without the notification of Consumer Affairs Department.
